

GLASS WHOLESale

Mirage™
THE CHOICE IS CLEAR

Mirage™

Mirage™ is mirrored glass made with two layers of paint backing, making it the ideal durable choice for adding the feeling of light and space to a room.

With its high level of reflectivity and perfectly flat surface, it has great functionality for commercial and personal use in gymnasiums, dance studios, barbershops, bathrooms and bedrooms. But as a decor choice, it literally shines. With more reflected light around the room and increased sense of space, **Mirage™** makes rooms feel bigger, brighter and more welcoming than ever before.

Mirage™ is also available in a range of tones to reflect the design aspirations of any building. Choose from clear, grey and bronze tones to produce different moods in your space.

Mirage™ mirrored glass offers great functionality and design benefits, adding spacious depth and brightness to both residential and commercial spaces with its high level of reflectivity.

High Level of Reflectivity

Reflections are clear with minimal absorbed light and perfectly flat surface, allowing for picture perfect mirror images.

Firm Wall Adhesion

By minimising porosity of the backing surface, **Mirage™** is easily installed on walls with adhesive.

Available in Different Tones

With clear, grey and bronze tones available, **Mirage™** fits right at home in a variety of different design aesthetics.
